

HB 6645

My name is Gary Kevorkian from Granby, CT. I am an attorney from Granby, CT and spend approximately 75% of my time counseling elderly clients and their families in managing their affairs.

Permitting assisted suicide will soon morph into a duty to die. As the elderly become dependent, they are no more able to advocate for themselves than an infant.

Oh, but I forgot, killing infants is also now permitted in our society. Passage of this bill will reinforce the sea change that is taking place in our culture, and will constitute an indictment against all of us.
